Final-year CSE student · Java Backend Developer · 8.75 GPA · Capgemini-trained · Seeking Java Backend Developer roles

EDUCATION

Institute of Engineering and Management *2022 – 2026*
Bachelor of Technology – Computer Science & Engineering *Kolkata, India*
- CGPA: **8.75 / 10**

Delhi Public School, Bokaro *2020 – 2022*
Class XII – Science (CBSE) *Jharkhand, India*
- Percentage: **86.5%**

PTJM Saraswati Vidya Mandir, Rajgir *2019 – 2020*
Class X (CBSE) *Bihar, India*
- Percentage: **93.16%**

EXPERIENCE

Capgemini – Java Backend Developer Trainee *Jan 2026 – Mar 2026*
Industry Training Program *Kolkata, India*
- Completed **3-month backend development training** covering Core Java, OOP, JDBC, JPA/Hibernate, Spring Boot, RESTful API design, PostgreSQL, and DevOps fundamentals.
- Designed and developed **Film Rental Store Management System** – a production-ready Spring Boot REST API with 16 controllers and 50+ endpoints, connected to a MySQL (Sakila) database; independently extended with a Thymeleaf-based frontend.
- Implemented **layered architecture** (Controller – Service – Repository), DTO patterns, custom JPQL/native queries, centralized exception handling, and Swagger UI / OpenAPI documentation.

TECHNICAL SKILLS

Languages	Java, SQL, Python (Basics), HTML, CSS, JavaScript
Backend	Spring Boot 3.3, Spring MVC, Spring Data JPA, Hibernate ORM, JDBC, REST API
Frontend	Thymeleaf, HTML5, CSS3, JavaScript
Database	MySQL, PostgreSQL
Testing	JUnit 5, Mockito (Unit, Integration & Controller layer testing)
Tools & DevOps	Git, GitHub, Maven, Postman, Swagger UI / OpenAPI, IntelliJ IDEA, VS Code, Eclipse
CS Fundamentals	Data Structures & Algorithms, DBMS, Operating Systems, OOP
Soft Skills	Problem-Solving, Team Collaboration, Leadership, Communication, Adaptability

PROJECTS

Film Rental Store Management System *Java 17, Spring Boot 3.3, Spring Data JPA, MySQL, Thymeleaf, JUnit 5, Swagger*

- Engineered a **production-grade REST API** with 16 controllers and 50+ endpoints for Films, Actors, Customers, Rentals, Payments, and Inventory – with pagination and sorting support.
- Wrote **custom JPQL and native SQL queries** for business analytics (revenue reports, rental stats by category); used Hibernate Spatial for geolocation and centralized exception handling via `@RestControllerAdvice`.
- Achieved **high test coverage** with JUnit 5 + Mockito across service, controller, and repository layers; integrated Springdoc OpenAPI for interactive Swagger UI documentation.

JARVIS – AI-Powered Personal Assistant *Python, JavaScript, HTML, CSS, Gemini API*

- Built a desktop virtual assistant featuring **face-recognition authentication**, PC file/application management, and AI-driven natural language conversation using the Gemini Chat API.

E-Commerce Web Application *HTML5, CSS3, JavaScript*

- Developed a **responsive e-commerce platform** with dynamic product listings, shopping cart, and checkout flow; focused on cross-browser compatibility, accessibility, and intuitive UX.

CERTIFICATIONS

- **SQL (Basic) Certificate** – HackerRank View Certificate
